SUMMARY

Electrical engineering student with hands-on experience in embedded firmware development and testing, proficient in analog and digital circuit concepts and tools like Cadence and CST Studio. Contributed to IoT firmware projects in Embedded C, supported prototype assembly and debugging, and collaborated with cross-functional teams to integrate electrical systems. Strong problem-solving skills and attention to detail in electronics prototyping.

EDUCATION

University of Missouri Kansas City

Master of Science - Electrical and Computer Engineering

Missouri, United States

Aug 2025 – Dec 2026

[Courses: VLSI, ASIC Physical Design, RF & Antenna, Mixed-Signal, Terahertz in 6G, Solar PV cells]

Vishnu Institute of Technology

Bachelor of Technology - Electrical and Electronics Engineering

Andhra Pradesh, India

Aug 2019 – May 2023

[Courses: Power Systems, Control Systems, Power Electronics]

PROFESSIONAL EXPERIENCE

QualiZeal India LLP Private Limited

Associate Software Development Engineer in Test (Full-time):

Onsite - Hyderabad, India

October 2023 – July 2025

Neptune Firmware - IOT Domain:

- Contributed to the development and testing of IoT firmware using Embedded C.
- Wrote and tested code in Embedded C using Visual Studio Code.
- Collaborated with the development team to ensure firmware functionality and reliability.
- Technologies: Embedded C, C, C++
- Tools: Visual Studio Code, Ubuntu

Norwegian Cruise Line (NCL) – Cruise Domain:

- Designed and executed test cases for web-based applications in the cruise domain.
- Performed manual testing, automation testing, and integration testing.
- Developed automation scripts using Selenium Java with IntelliJ and Eclipse.
- Used Postman for API testing and TestRail/Jira for test management and defect logging.
- Testing Frameworks: Cucumber BDD, TestNG, Robot Framework, Playwright with JavaScript & TypeScript.
- Testing Types: Manual (Sanity/Smoke, Regression, Functional, Ad-hoc, Integration Testing) & Automation.
- Technologies: Selenium with Python, C# & Java
- Tools: Jira, TestRail, IntelliJ, Eclipse, Postman

Trainee (Part-time):

April 2023 – September 2023

- Explored on manual testing for designing and executing test cases, reporting defects.
- Learned on automation testing for writing test scripts using selenium with java, and python.

PROJECTS

STM32 Microcontroller Device Using Embedded tools

2026

RTL to GDSII Flow (Register Transfer level, Logic Synthesis, Floor & Power Planning, CTS, Placement, Routing)

2025

SRAM Project (Schematic, Butterfly Curve Simulation, Layout Design)

2025

IOT Based Autonomous Fire Extinguisher, Temperature, AQI Monitoring for Commercial Buildings

2023

This is my MAJOR PROJECT where we have used Node MCU, MQ2 & DHT11 sensors, AQI monitor for air purifiers.

COURSES & CERTIFICATIONS

Udemy – Microcontroller Embedded C Programming (Mar 2026)

SEL Relays – SEL - 101, 102, CBT – 104, 105. (Dec 2025))

Browser Stack - Selenium Automation with TestNG (Feb 2025)

Guvi & HCL - SAWiT.ai challenge, Generative-AI, Python (April 2024)

SKILLS

Tools: Cadence (Xcelium, Genus, Innovus, Virtuoso), CST Studio, MATLAB.

Methodologies: Agile, V-Model, SDLC, STLC

Hobbies: Coding, Reading books, Web Surfing.

Languages Known: English, Hindi, Telugu.

HONORS AND AWARDS

- Dean's International Scholarship Award (DISA)
- Rising Star Award by CEO of QualiZeal (April 2024)
